CENTRAL REJECTS **WEST SIDE PROJECT**

Vice-President Place Says Company Never Will Accept Pending Measure.

EXISTENCE THREATENED

Asserts Terminals and All Other Manhattan Improvements Are Put in Peril.

Ira A. Place, vice-president of the New York Central Railroad, issued esterday a statement in reference to he tentative proposals of the joint conference committee of the Public Service ommission and the Board of Estimate Side improvement in which he said impressions had appeared in the news-papers that an agreement had been eached with the company along the line.

"No settlement whatspever has been hade." Mr. Place explained. "Neither nor any other representative of the ompany has had any conference what-ever in regard to these proposals. I ave met the joint committee but once." Mr. Place denounces the Ottinger bill governing the situation

"Whatever may be said of the val-lity of other provisions of this statute." remarked, "there is not the slightest These leave no discretion with anyone. They are mandatory. The necessary result is that the railroad company cannot and will not act at any time or under any circumstances or conditions which an be proposed by anyone under this statute make or enter into any con-

Contention of Railway.

The amending statute took effect June 1917. It became a law on the eve of the consummation of a proposed agree-ment, which had been reached after long and thorough discussion and puband thorough discussion and pulsage and thorough discussion and the commission and the seculiarity favorable to the city and the West Side situation, when shown an animous approval of the practically analimous approval of the press, of most last night a copy of the statement issued yesterday by Mr. Place, defended the bill and said in conclusion:

"The new plan is, I believe, the best last night across the last last night across the statement issued yesterday by Mr. Place, defended the bill and said in conclusion:

"The new plan is, I believe, the best last last night across the commission and the second powers for dealing with the west Side situation."

der consideration at the time the law the 1916 agreement, were those which ere submitted to the railroad company y the Board of Estimate and Apportion-ment itself. Any modification of those

Only Tentative Proposals.

since June 2 I have been waiting or that better plan and terms [that the ew joint committee was to submit], hose which are now given out, however, ire not only appropriately called the tive proposals' and cover at best only a tive proposals' and cover involved, but portion of the territory involved, but they emphasize the impossibilities. They are accompanied by no maps or profiles, no prices estimates or figures of any kind. All the changes suggested in the physical plan have been heretofore proposed by various interests, some of them originally proposed by me, but which after a thorough discussion were rejected as either unwise or impracticable.

not to be mortgaged, except as specified, and it is to be subject to absolute termination at the end of twenty-five years. Does any one suppose that this right of way is not coveted by existing railroad mortgages or that this land, now being an essential part of the railroad, could by any possibility be released from those mortgages, unless or until it could be mortgages unless or until it could be shown that they were no longer needed for railroad purposes; in other words, that the trustees of the holders of bonds secured by these mortgages, savings banks, trust companies, all sorts of insti-citions and individuals—could surrender an integral portion of their security? It is safe to say they would not if they could

For such of the property covered by For such of the property control of these mortgages as it was proposed to convey to the city under the agreement of 1916 we were in a position to obtain teleases for the reason that title to other properly in fee required to carry out the plan was to be substituted.

Payment in Rentals Proposed.

This proposed that the city pay for the lands so acquired and also the cost of construction of strictly mu-hicipal improvements, but how? In cash? No. But out of rentals which in manner are to become due to the The real estate which the com-was to convey or surrender to the under the 1916 agreement was optraised by the special committee of optraisal of the Real Estate Board of the York at \$8,948,984; that which was to be granted by the city to the company has appraised by the same committee it \$12.811.209, leaving a balance in favor of the city of \$3.862.225.

The value of the readway which it is how proposed shall be conveyed to the city in fee on the basis of assessed valuation with consequence of damages would much more than wine out this

would much more than wipe out this balance. What is there left as a source of rent to accrue to the city to meet these obligations? It makes no differwhether it is on a rental basis of basis. If in an exchange of rea a fee hasis. If in an exchange of real state the values are equal there is neither a seach balance nor a fee basis nor a rental balance on a rental basis.

Right to Operate Involved.

*2. But the most astounding proposi-fion of all is that this joint committee, two of whom are Public Service Commisaloners, having assumed duties and obligations to both the public and public service corporations, and especially charged with respect to adequate rail-road facilities, actually proposes that all de rights and leaseholds granted to the railroad company shall be 'subject to complete termination by the city after

twenty-five years without legal proceeding. This, under the terms of the proposal, would include the entire right of the railroad company to operate on Manhattan Island, an absolute right which it now has without limitation as to time and which has been so established by the decisions of all the courts of the

the decisions of all the courts of the State having jurisdiction,
"In other words, it is proposed that any future city administration may have the right to destroy the most important terminal on Manhattan Island, serving millions of people, the most important cities in New York State and and in the central Western States, and served by thousands of miles of railroad. Of what use these railroads without terminals? And this is to be done without any provision or consideration without any provision or consideration for investment in freight stations, yards and terminals, making them uneless for the purposes for which they were constructed, and thereby depriving not only the railroad company, but the ship-pers and the business interests of Man-hattan Island of all these necessary fa-

ITALIANS BEAT OFF ATTACK. Austro-Hungariana Pail in New

Sallies on Isonso Frent. Rome, Oct. 14.--Austro-Hungarian de tachments yesterday made attempts to attack the Italian positions west of the Chiapovano Valley, on the Isonzo front, but they were driven back by the Italians. The official statement issued to-day by the War Office says:

From Steivio to the Rombon there was frequent artillery fighting.
On the Bainsizza Plateau and on the southern front of the Carco there were violent reciprocal bursts of fire. At Vrhoveo, west of Chiapovano, enemy parties attempting to approach our positions were promptly repulsed.
